## AT REST.

Cardinal McCloskey Passes Peacefully Away.

FRIDAY'S MELANGE OF NEWS.

Big Blow Up—Rumored Hitch—The Immediate Delivery—Floods in Mexico—Etc.

### The Death Watch

New York (midnight), October 9.—Reports from the death watch at Cardinal McCloskey's house is to the effect that his death may occur to-night.

Cardinal McCloskey died at 12.50 this morning, peacefully and surrounded by relatives and clergymen of his church.

New York, October 9.—Soon after 4 o'clock the Cardinal sank into unconsciousness, and so continued through the evening. The gravest apprehensions were based on this fact, and Monsignor Farley, Father Doubresse, and Mrs. John Kelly, who was in her home, were hurriedly summoned to the Cardinal's house and bedside. At 10 o'clock those about the bedside of the sick man were of the firm belief that he would never regain consciousness. The Cardinal's nephew had been sent for, he being in Philadelphia. For some hours prior to his loss of consciousness, the Cardinal had taken no nourishment, and those who watched felt that now was left was the inevitable and speedy exhaustion of the unsupportable vital forces. Rev. Father Doucette came hurriedly soon after 10 o'clock and joined the group of watching friends. It was yet thought that dissolution might be distant from ten to twelve hours, but this was not to be.

About midnight the lights began flashing from various rooms in the Cardinal's house, and to the groups waiting outside there came the consciousness that unusual activity inside was indicative of the approach of the closing scenes. At 12.30 a nervous twitching of the muscles of the dying man's face was observed and the household drew nearer. The doctor bent by the bedside, and constantly felt the rapidly flickering pulse. Rev. Monsignors prayed fervently and repeated invocations for the dying. Half past 12, and the scene was one simply of waiting. On one side of the bed were the Cardinal's nieces, Mrs. Kelly and Mrs. Cleary, and on the other side was Miss McCloskey and Miss Mullen, the latter another niece. Behind them and standing almost in a circle were Monsignors Farley, Presbiter and Quinn, Archbishop Corrigan, Dr. McDonald, Father Doubresse and assistant priests attached to the cathedral, reading prayers for the dying. Dr. Keyes, at the head of the bed, anxiously watched the ebbing life of his patient, who, though unconscious, still holds in his hand the crucifix emblem of his faith. At 12.50 the end came and so peacefully and painlessly that those who watched scarcely knew that the great change had come until Dr. Keyes testified that all was over and the Cardinal was dead.

The dead cardinal's remains will rest in the vaults of the cathedral. The interment will probably be one week from Sunday next.

### Opposes Secular Education.

DUBLIN, October 9.—Cardinal Manning's article on how Catholics ought to vote in the coming election has appeared in the *Dublin Review*. The Cardinal defends the Parliament and the constitution, even though opposing Catholicism. He praises liberalism, which is devoted to the care of the poor, the change of the land laws and the enforcement of local option. He strongly denounces secular education, and urges the Catholics to place the religious question foremost and to support only those candidates, who are in favor of placing voluntary schools, a national question in Christian education and of appointing a Royal Commission to examine the education question.

### New Custom Houses.

PANAMA, via Galveston, October 9.—A decree establishing custom houses on the isthmus of Panama, has been issued by the President of Columbia. This decree is issued under a law passed in 1884. Custom houses at Colon and Panama thus provided for, will charge import duties at the rate of 30 per cent. of the duties levied at the other custom houses in the Republic.

### An Earthquake.

RICHMOND, Va., October 9.—A special dispatch says: "A very distinct shock of earthquake, of three-quarters of a minute's duration, was felt at 11.35 to-night, at Louisa Courthouse, sixty miles from Richmond, on the Chesapeake & Ohio Railway."

ST. LOUIS, October 9.—New York 5, St. Louis 0.

CHICAGO, October 9.—Philadelphia 12, Chicago 11.

### Royal Blood.

We are all kings and queens in this country, and we have a right to as good blood as that which courses through the veins of emperors. If the blood is poor and the cheeks are pale, it is well known that Brown's Iron Bitters is the great tonic which will give color, vigor, and vitality. Mr. M. K. Gibson, of West Point, Miss., says, "I felt weak and debilitated. Brown's Iron Bitters made me strong and well."

## A Big Blow-Up.

NEW YORK, October 9.—A great explosion of nearly 300,000 pounds of dynamite, which is expected to shiver the flood rock and clear Hell Gate channel, is set for to-morrow morning at 11 o'clock. The work of clearing away the machinery, buildings and other valuable property, was completed to-night and all remains are the elevator timbers over the main shaft and a little tool shanty, fitted with shelves to hold the cells of the great battery which will cause the explosion. Thirty-six wires running to detonators in the mine are hanging in a bunch, awaiting the time when Lieutenant Derby will connect them with the battery, which will be the last work done on the rock.

## Floods in Mexico.

MEXICO, via Galveston, October 9.—The continued rains make regular rail road traffic impossible. Passengers and mails on the Central Railway are still detained. The bridge at Lerado has been carried away and the passengers and mails are being transferred in boats. There can be no permanent improvement still it stops raining in the interior. The rains in this city have, several times within a week, flooded the streets, making travel, excepting by boat, impossible. The low lands about this city and near Guadalupe are flooded. The loss to the farmers in the flooded districts in the interior will be heavy. A number of lives have been lost in the rural village by bursting reservoirs.

## The Immediate Delivery.

WASHINGTON, October 9.—From the reports received thus far, it appears that nearly all of the Postmasters speak well of the future of the special delivery system, and the business is increasing. Local matter equals outside matter in volume. Reports show that the letters generally have been delivered with surprising promptness. Reading reports, the average time required for delivery to be nine minutes, while the letters have been received at the Department Building in this city in seven minutes from the time they were dropped in the postoffice.

## Prospective Stallion Race.

NEW YORK, October 9.—Isador Cohenfeld has accepted the challenge of John Murphy, to trot the stallion, King Wilkes, against any trotting stallion in the world for \$1,000 a side, and names his stallion Maxey Cobb to take part in the race. Cohenfeld has deposited with the *Spirit of the Times*, \$500 on forfeit, the event to take place before November 3d, on a good day and good track, the winner to take the entire gate receipts.

Glanders in Horses—An Appointment—Probably a Hoax—Has Been Elected.

### The Indians.

LAKE MOHOCK, October 9.—The conference closed to-night, with a number of miscellaneous addresses. Mrs. F. E. H. Haynes, of New York, told an interesting story of a recent trip to Alaska, during which she visited the Indians. Rev. Dr. Kendall, supplemented the story with certain experiences of his own in the same region. Miss Fletcher, whose work among the Omahas is well known, told of the building of a cottage through the efforts of the ladies connected with the Indian association for the benefit of an educated young married couple, who have returned from Hampton School to the reservation and have a little farm of their own. Professor C. C. Painter, Washington, gave a narrative of a visit to the Indians of Southern California, in whose behalf Mrs. Helen Hunt Jackson labored so earnestly.

LAKE MOHOCK, N.Y., October 9.—In the Indian civilization conference here, to-day, Hon. Erasmus Broth offered resolutions concerning the death of Helen Hunt Jackson. Tributes were paid to her memory and to her work in behalf of the Indian, and the resolutions were unanimously adopted. On motion of Mr. Oberly, the president of the conference was authorized to appoint a committee of five gentlemen and four ladies, who should prepare an address in which the resolutions in relation to the Indian cause should be incorporated, to be presented to President Cleveland. A resolution, offered by Dr. Kendall, was adopted, respectfully calling the attention of the administration to the Mission Indians of California, and petitioning for immediate steps for their protection. Adjourned.

### From Frisco.

SAN FRANCISCO, October 9.—Charles Crocker telegraphed \$5,000 from New York to-day in aid of the families of firemen who were killed and injured at the fire in the Crocker building yesterday.

The Legislature at the last session passed a law requiring all foreign incorporated insurance companies to pay one per cent. of the receipts for premiums as a fund to aid sick and disabled firemen and needy families of deceased firemen. The act will take effect on the 1st of December next, and will yield a fund of about \$12,000 a year. It is stated to-day that the insurance companies interested will resist a compliance with the law.

The losses of Schweitzer, Sachs & Co., dealers in fancy goods, from water at the fire of the Crocker building, yesterday, will probably reach \$150,000. They carried \$600,000 stock, and \$200,000 insurance, chiefly among the English and Continental companies.

### Glanders in Horses.

BUSHNELL, Ills., October 9.—Horse breeders in this vicinity are considerably alarmed over the discovery that glanders exists in J. H. Truman's herd of range horses. Two horses of the herd died within a week, and five out of the remaining fifteen are suffering from the distressing malady. Dr. Paaren, State veterinarian, yesterday examined the distressed animals and at once pronounced the malady glanders. The glandered horses will be shot to-morrow. This herd was shipped from Montana last June. Portion of the number went through to Trenton, N. J., where two discovered to have glanders, were shot. Dr. Paaren telegraphed from here to-day ordering that a carload of horses just received at Chicago stock yards be quarantined.

## A Rumored Hitch.

BOSTON, October 9.—A reported hitch has occurred in the Union Pacific Railroad negotiations, whereby \$300,000 was to be borrowed from a trust company in New York, which had \$300,000 worth of land grant trust funds on deposit. The collateral is understood to be St. Joseph and Grand Island bonds, and certain parties in power are understood to have objected to the transactions involving too much risk. The Union Pacific officials here, however, deny all knowledge of any hitch, and say, in fact, that they have had no negotiations with any trust company in New York, excepting to endeavor to induce one company to allow of an advance payment of certain claims comprised in the floating debt. It is officially asserted that the Union Pacific company now has in bulk, fully \$1,500,000, which it will use with other funds whenever it can do so to advantage in making advance payments of outstanding claims.

H. E. Grow, Electropathist, No. 412 W. South Temple Street, opposite Valley House, and next to Sandberg's store.

SALT LAKE CITY, October 1st, 1885.

Mr. H. E. Grow:

Dear Sir:—I cheerfully give you my testimonial to the efficacy of your treatment by electricity. I was severely afflicted with sciatica rheumatism, but am now happy to state entirely cured by your treatment, and recommend the same to all those afflicted with the disease.

JAMES WATSON, Bishop Nineteenth Ward.

H. E. Grow, Esq.:

Dear Sir:—For nine months succeeding the birth of my last child, my suffering was most intense. I was afflicted with constipation, vertigo, lumbago, and a complication of other ailments, from which only women suffer. During all those weary months I was confined to my bed, and room, and was attended by different physicians, and tried various remedies, but without avail. I heard of your success in treating diseases by electricity, and resolved to try your treatment, with but little faith, however, that I could be cured. But I now rejoice to know that you, under divine providence, have restored me to health. And I feel it a duty I owe to the afflicted, to make my case known, and to recommend your system, for the treatment of similar cases.

Respectfully, MINNIE MADSEN.

Consult the above named Mrs. Madsen, at Madsen's furniture store, No. 39 and 41, First South Street.

H. E. Grow:

Dear Sir:—About seven years ago I was attacked with typhoid fever, and during the protracted illness which followed, my hearing became so much impaired that I couldn't hear unless spoken to in the loudest voice, for all these years I have endured this distressing misfortune without finding relief, until I tried your Electric Treatments for Deafness, and I am now most happy to state that you have restored my hearing so that I can distinctly hear when spoken to in the ordinary way and can converse with my friends as I could before this affliction came upon me.

MRS. CHAROLINE RANSOM, Sixteenth Ward.

SALT LAKE CITY, Sept. 7, 1885.

Mr. H. E. Grow:

Dear Sir:—After years of suffering from pain in my head and back, and a general prostration of my whole system, caused I presume, from irregularities peculiar to my sex, I began to feel that my case was hopeless, as I could find no remedy to give me relief. I was persuaded to try your Electric Treatment, which I am happy to say, has proved the greatest blessing of my life, for it has restored my health. You may use this letter as you like. Some sufferer afflicted as I was may try it, and find relief as I have done from your treatment.

Yours Respectfully, MISS H. RANSOM, Sixteenth Ward.
